THE largest quantity ever in this market, together with a general assortment of HARDWARE, for sale by
Michael Schwartz,
Exchange Street, Bangor.

NEW AND IMPORTANT DISCOVERY IN THE SCIENCE OF MEDICINE.
TRISEMAR.—None are genuine unless the engravings of the Seals of the Patent Office of England, the Seals of the Royal de Pharmacie de Paris, and the Imperial College of Vienna, are fixed upon each wrapper, and around each cake.
Sold by Dr. H. A. BARLOW—Member of the Imperial College of Vienna, and Royal College of Surgeons, London; who may be personally consulted at his residence, No. 137 Prince Street (few blocks West of Broadway) New York, from 11 o'clock in the morning till 2, and from 4 o'clock till 8 in the evening, (Sundays excepted).
TRISEMAR No. 1—Is the remedy of general and local debility, loss of vital power, premature decay, and all the distressing consequences resulting from early abuse, &c., as all physical impediments vanish like mist before its influence, thus rendering its use invaluable to those entering the marriage state.
TRISEMAR No. 2—Entirely eradicates all traces of those disorders which Copaiba and cubebs have so long been thought the antidote for to the ruin of the health of a vast portion of the population.
TRISEMAR No. 3—Is the great European remedy for that class of disorders which, unfortunately, the English physician treats with mercury to the inevitable destruction of the patient's constitution; and which all the Sarsaparilla in the world cannot remove.
TRISEMAR Nos. 1, 2 and 3—are prepared in the form of a lozenge, devoid of taste or smell, and can be carried in the waistcoat pocket. *Sold in fifty cases and divided in separate doses, as administered* by Valpeau, Lallemand, Roux, Ricord, &c. Price $1 each, or four cases in one for $3, which saves $3; and in 27 cases, whereby there is a saving of $9.
Special arrangements have been made with the various Expresses, the nine-dollar cases of the Trisemar, and the larger sizes, will be forwarded by Dr. Barlow, carriage paid, immediately on receiving a remittance, to any part of the world, securely packed, and addressed according to the instructions of the writer, thus securing to the public genuine European preparations, and effectually preventing them from spurious and superfluous imitations. The three dollar cases sent as usual, but not free of carriage.
No. 137 Prince-st., (a few blocks west of Broadway) New York.—Jan. 13 1y.

American Safety Paper.
Manufacturing Company of N. Y.
Capital $500,000.
A. NICHOLAS, President. Office, 70 Wall-st.
A Perfect Security against all manner of Fraud or Counterfeiting on Paper—To Prevent Photographic and Acidatic Counterfeits, Erasures, Transfers or Alterations.
HAVING purchased the Patent for the exclusive right to manufacture and sell the Chemical Paper in America, invented and patented in England by Hosea Oliver, a celebrated chemist and officer in the British army, it is hardly necessary to say that the Paper is recommended by Mr. Kent, Assayer of the U. S. Mint, Mr. Lyman of the New York Clearing House, and Meade Brothers, extensive and skillful photographers, 233 Broadway, N. Y. The latter say that no alteration can be made on a check or bank note printed on the Safety Paper. Below is our list of prices:
Bank Checks—36 cts. per lb.
Bank Bills—$18 for 1000 sheets.
Bills of Exchange—$25 for 1000 sheets.
Promissory Notes—40 cts. per lb.
High and Time Drafts—$25 for 1000 sheets.
Insurance Policies—40 cts. per lb.
Railroad Stocks and Bonds—40 cts. per lb.
Bank and State Stocks—40 cts. per lb.
Bonds and Mortgages—40 cts. per lb.
Wills and Deeds—40 cts. per lb.
For wrapping Silks and other fine articles it is excellent, as it prevents moths. 40 cts. per lb.
For Indentures and Agreements, 40 cts. per lb.
All Town and County Records should always be printed or written on this paper, as the chemicals inserted in the pulp not only prevents erasure or transfer, but makes it lasting as time.
For Southern climates it is excellent, and much superior to any other, as the moistness of the climate does not destroy it,—the properties inserted in the pulp being a preventive. In all the Southern States, Cuba, the West Indies, and the Central American States, no public records can be kept over 20 years, written on the ordinary paper, while the oils and other chemicals inserted in this paper makes it indestructible by the ravages of time. It is also proof against moths, rats and other vermin, which feast on and destroy all other paper now in use.
The Company have now in operation Mills in Morris County, N. J., of about 300 horse power, and are able to fill all orders for Paper at the shortest notice.
All orders for the Paper must be addressed to A. NICHOLAS, President of the Company, No. 70 Wall Street, New York.

At No. 5 Main Street.
Stickney & Roberts,

500 Agents Wanted.
A Homestead for $10.
THIRD DIVISION.
$30,000 WORTH OF FARMS & Building Lots, in the Gold Region of Culpeper County, Va., to be divided among 10,000 subscribers, on the 7th of December, 1857. Subscriptions only *ten dollars* down; or fifteen dollars, one half down, the rest on the delivery of the deed. Every subscriber will get a Building Lot or a Farm, ranging in value from $100 to $25,000. These FARMS and LOTS are so arranged as to include settlements, small farms, but being reserved, the increase in the value of which will compensate for the apparent low price now asked. Upwards of 1000 Lots are already sold, and a company of settlers is led to the *Rappahannock Pioneer Association*, is now forming, and will soon commence settlement. Ample security will be given for the faithful performance of contracts and promises.
Near 5,000 acres of land in different parts of Virginia, now at command, and will be sold to settlers at from $1 up to $500 per dozen—*the particulars will all in cases be given.*
WOOD CUTTERS, COOPERS, FARMERS, &c., are wanted now.
100 Agents to solicit subscribers, to whom the most liberal pecuniary benefits will be given. Some Agents write that they are making $200 per month. For full particulars, subscriptions, agencies, &c., apply to
E. P. BAUDEN,
Port Royal, Caroline County, Va.

LINCOLN'S
WATER PROOF BLACKING,
AND LEATHER PRESERVATIVE.
Keep your feet dry, and you will seldom need a Physician.
IS not a truth that when the feet are often wet, it is one of the greatest causes of colds and consumption? It is a truth that when leather is often wet and dried, it soon becomes hard, stiff, and cracks; but when its water-proof has been renewed by the application of this preparation, it remains soft and entirely impervious to water.
After being engaged for 25 years in the manufacture of Leather in all its branches, and being often troubled with wet feet myself, I was led to experimenting on different compositions, and found it easy to make it water-proof, but at the same time extremely injurious to the leather. After by a simple process, I discovered a preparation which perfectly harmonizes with the nutritious properties, with which leather is stuffed. It will not only make leather water-proof, but it will soften the leather, and it will
Positively wear twice as long.
I have now used it for three years, and a large part of that time have worked in a wet tannery, with my boots constantly in water, and have had my feet wet during that time. I can therefore in all confidence, recommend it to the public as the best article in the market.

Chilson's New Cone Furnace.

PATENTED IN
America, England and France
THE thousand and highly satisfactory testimonials of a large number of
CONE FURNACES,
in use during the last cold winter, has proved to be an invaluable invention, in the economy of fuel, and in the increased comfort of the occupants of the house. The manner of heating, or conveying back the smoke and gases in a cluster of cones (or superior radiators) near the chimney, into which the formerly wasted products of combustion are received and completely consumed, is the concept of a superabundant economy of fuel, and a healthier temperature than with any other mode of warming. Couple this economy of fuel with the testimony of hundreds of persons whose families have been greatly benefited by the general use. We are satisfied that all who can see for themselves, and discover a preparation which perfectly harmonizes with the nutritious properties, with which leather is stuffed. It will not only make leather water-proof, but it will soften the leather, and it will
Positively wear twice as long.
I have now used it for three years, and a large part of that time have worked in a wet tannery, with my boots constantly in water, and have had my feet wet during that time. I can therefore in all confidence, recommend it to the public as the best article in the market.

Brown's Bronchial Troches, or Lozenges,
A safe and certain remedy for Coughs, Hoarseness, Colds, and other affections of the throat and chest. In Incipient Consumption, Asthma, and Winter Coughs, they are unfailing. Being free from every hurtful ingredient, they may be taken by the most delicate female or the youngest child, while the Public Speaker, and Professional Singers will find them invaluable in allaying the hoarseness and irritation incident to vocal exertion, and also a powerful auxiliary in the production of melodious enunciation.
(From the National Era, Washington.)
We so far depart from our custom as to say of "Brown's Bronchial Troches," that we have seen them tried and find them excellent for Coughs, Colds, Hoarseness, &c.
Sold by all druggists in the United States at 25 cts and 50 cts per box. The largest box is the cheapest.

"DROWNING MEN CATCH AT STRAWS." The Bangor "Union," with other kindred prints which are the mere echoes of the Administration organ at Washington, in labored efforts to gloss over the corruptions of the bogus Convention in Kansas, has recently published a garbled extract from the National Era, in which that respectable Free Soil print is made to treat very lightly, if not almost to apologize for, the outrageous denial to the public, by that Convention, of their right to have submitted to them the entire Constitution for their approval or rejection. The Era is quoted as fully recommending to the people to vote on the 21st of December, notwithstanding the limitations imposed, the frauds to which they have been subjected, and the greater fraud yet awaiting them at the hands of that New England renegade *John Calhoun*, and the band of ruffians whom he has the power to appoint as judges of elections throughout the Territory.

To show the injustice which has been done to the print referred to, and the imposition which the Union and other pro-slavery papers are attempting to palm off upon the people, we republish, the following editorial article from the last number of the National Era. It speaks for itself, aloud and fearlessly:

"The entire action of the Convention is so base a fraud, that no countenance ought to be given to it directly or indirectly. Its denial to the people of an opportunity to vote *for* or *against*, a Constitution of State Government, formed by a minority of a Convention representing only an eighth of the voters of Kansas, is so palpable a violation of the principle of the Kansas-Nebraska Act, which guarantees to the people the right to determine their own institutions, that the responsibility should be left to Gov. Walker, Mr. Buchanan, and the democratic party, of deciding whether they will confirm or condemn the course of the Convention. If they choose to confirm it, let them—and let them take the consequences.—The people will be apt to vote their wanted devotion to the principle of popular sovereignty a mean imposture, and brand them as political swindlers. There is no necessity that the Free State men should vote on the 21st of December, merely to prove that they have a majority. That fact is already proved; attested under the hand of Geo. Walker and Secretary Stanton. The nine thousand voters who elected Mr. Parrott the in favor of a Free Constitution for Kansas." Congress cannot, but on this fact, or build the people to its logical consequence. No partizan democratic member of the House in the Free States can excuse himself, in view of this fact, for voting for a Constitution made by 28 members of a Convention of 60, chosen by only 1500 voters! The American people are not quite dead to all ideas of fair and manly dealing."

Relief of the Poor.

The call for a meeting of our citizens to listen to an appeal in behalf of the poor, was heartily responded to. The Central Church was crowded at an early hour on Sunday evening, and many went away unable to obtain seats.

After the usual devotional exercises, Rev. Mr. Dutton complied with the invitation which had been extended to him at a previous informal meeting, by giving an Address on the Christian Duty of rendering relief to the suffering poor; its Motives, Principles, Agencies and Results.

The Motives are furnished in these two sayings recorded of our Lord, that "the poor we have always with us and when we will may do them good;" and that, "it is more blessed to give than to receive." The heathen have not even the conception of disinterested benevolence, much less the disposition to practice it, and all unchristian theories and projects have signally failed, and ever must, because they ignore or are antagonistic to the character and condition of human beings. Christianity teaches us to look upon all men, however outwardly degraded, as children of the Common Parent, all the objects of His love, endowed with the same faculties as ourselves, and redeemed by the same heavenly mercy.

But while christianity thus furnishes the motives and animating spirit, we are left to the exercise of our judgement to devise means and decide on principles to guide our actions. In every large community there will always be a considerable number of families, who aim only to supply their daily wants and consequently are sure to be destitute, as soon as they become sick or lose employment. Our first duty to this class, is to teach them the necessity of becoming forethought, the advantages of providing against future reverses of any kind, so that when overtaken by disease or dull times, they may have the means of helping themselves, till their circumstances become more favorable. After this our duty to those able and ready to work, is to furnish or procure it for them, if possible. This is always the best method of relief when the work can be obtained, as it encourages industry—the formation of good habits—and fosters a sense of self respect. In cases of sickness where we cannot give employment, we must carry food, clothing, medicine or money, according to the necessities of the case. In this kind of alms-giving we must discriminate between cases of transient and permanent poverty. We aim chiefly at the relief of the former; of persons and families who, when well, and in ordinary times, can provide for themselves. Those who will never be able to do so, should be cared for by the city authorities through the overseers of the poor. A further discrimination is necessary between the virtuous and vicious poor, always giving the preference to the former, though not leaving the latter to suffer if we have the means of relieving them.

As to the Agencies necessary to carry out these principles, we want an organization of all the benevolent:—The men to form a society with the usual officers, constitution, and by-laws; making the condition of membership at least one dollar and upwards, appointing its own agent or agents, disbursing through them its monies,—having an annual meeting, making an annual report to the public, procuring addresses, &c.

The ladies of the city o meet by neighborhoods or districts, to communicate information, provide clothing, help make it up, agree on plans of visiting the poor and especially the sick, conferring with the city missionary and co-operating with him, thus giving greater efficiency to his efforts and furnishing him with clothing, food, medicine and information.

This is a plan which will require much expenditure of time, money, sympathy; requires our personal agency as indispensable; denies that we can wholly delegate these duties to another, or properly perform them by proxy. But if heartily entered on, and persevered in, we shall witness the happiest results, in the present relief of many families from hunger, cold and sickness,—in poor parents saved from that feeling of isolation which is the most degrading effect of poverty; in their children saved from a career of vice and crime, and encouraged to improve their condition till they become useful citizens, a blessing to their friends and the community.

These were the main points of the address. We hope a meeting of our citizens will be soon called in response to it, and that for the future we shall have a Benevolent Society embracing all our citizens, and such efficient measures taken through its agency as will secure the unfettered poor from all real suffering. That the ladies will do their part is certain. In fact they have already entered upon their work.—May they meet with much encouragement.

COOL.—YOUNG. A few nights ago a telegraph operator in Boston heard a burglar attempting to pry open a window to get into his house.—Mr. operator immediately threw open the upper window and said:

"Hullos, friend, you must be green at business to attempt to rob a telegraph operator!—You might as well try to steal from a printer."

"That's so," said the rascal, deliberately climbing over the fence and walking leisurely off. "I ask your pardon. I thought it was the residence of a gentleman," and then proceeded down the street whistling

"Home, sweet home."

Additional by the Northern Light

NEW YORK, Nov. 29. The mail steamer Northern Light, from Aspinwall on the 21st inst. with 603 passengers, the usual California and Pacific mails, and $2,18,672 arrived at this port this evening, too late for the mails to go East for South.

The mails and passengers from New York and New Orleans November 5, left Panama for San Francisco on the afternoon of the 16th, all well.

The Northern Light, on the 6th inst. A.M., off Cape Florida, passed the U. S. M. steamer Star of the West, bound for Aspinwall.

The most important item of news by this steamer is the display before the public of a large amount of evidence going to show that the large 118 emigrant massacred in the southern part of Utah, while on their way to California (news of which occurrence was sent by the last mail) were murdered by Mormons. Mr. George Powers arrived a few days since at Los Angeles, from Salt Lake, and reports having heard many Mormons threaten to kill Gentiles passing through their country. He met a party of Mormons and Indians going towards a Mormon settlement from the scene of the massacre, and they had in their possession bundles of clothing and other articles, apparently the spoils of the murdered; and the whole party appeared to be on very friendly terms with one another, and all in high spirits.

Mr. Powers also states that, in San Bernardino, he heard Capt. Hunt, a man of authority among the Mormons, say he was glad of the massacre, and believed the hand of the Lord was in it, whether done by Indians or whites."

P. M. Warren, of Genoice, County, N. Y., who came through about the same time with Mr. Powers, believes also, from numerous facts observed by him, that the Mormons are guilty of the bloody crime.

Messrs. Abbott and Pine, two gentlemen who have lately been at San Andres from the Humboldt river, report great hostility on the part of the Mormons towards emigrants coming to California by the Southern Pass, and great friendship with the Indians, who had made attacks on emigrants.

Mr. Abbott says the hundred emigrants have been killed this year on the road between Salt Lake City and California, by the Indians and Mormons, but this estimate is much exaggerated.

There was a little broil of a fight between the settlers at Honey Lake Valley, east of the main divide of the Sierra Nevada, and the Indians, but peace has been restored.

The newspapers contain reports of the discovery of coal veins in Bonneville County, near Petaluma.

The United States District Court, on the 21st, confirms the claims of Juan Trisostomo Galindo, to 8000 acres of land, lying one league south of the town of Santa Clara.

The shaft of a quartz lode, at Sutter's Creek, Amador is 316 feet deep, and is supposed to be the deepest in the State.

Nicaragua.

We have received the Gaceta Official of Inquiqa, to Oct. 24th. The Gaceta contains a declaration of war against Costa Rica, which states that the government will preserve the rights to the whole line of transit from San Juan del Sur as well as to the District of Guanacaste.

Another decree in the same paper names Don Gregorio Juarez and Don Rafaela Cortez, as which in charge of the government during the time General Martinez and Xarez take charge of the army. Don Manuel Alvarez is named Secretary of War. Gen. Tomas Martinez has been appointed commander-in-chief of the army.

A letter is published from Col. C. F. Cauty, calling on Col. Segundo Cuadesma, commander of the fort of San Carlos, to surrender to him, in the name of the Costa Rican government. In case of non-compliance, his orders are to blockade the fort and starve it out. Report says that Col. Cauty is on the lake in one of the steamers and that he had been fired on by the Nicaraguan forces.

It is also said that Mr. Carey Jones, who is in Granada, supports Nicaragua in its resistance to the claims of Costa Rica.

A two story dwelling house at Damariscotta Mills, occupied by Arthur Tomlinson, was entirely destroyed by fire Friday forenoon—loaded for $1000.

LOCAL AND MAINE NEWS.

Police Court,

TUESDAY, Dec. 1st.

David Inman and Albert Eaton of Oldtown, were brought before the Court by officer Walker, on a charge of breaking and entering the store of Homer & Stowe of Oldtown, on the night of the 23d October, and stealing therefrom goods to the amount of $400. After a full hearing, the Court ordered them to give bonds in the sum of $1000 each for their appearance at the February term of the Supreme Judicial Court; failing in which they were committed to jail.

Inman was also examined on a charge of breaking into the store of Charles Fisk, of Oldtown, on the night of the 28th Nov., and stealing $300 worth of goods; for which he was ordered to recognize as above.

Elijah Carr, who was concerned with Inman and Eaton, was used as a witness for the State.

A part of the goods have been found.

THE $15 SEWING MACHINES.—We understand that Messrs. Penno & Hale, Wm. Arnold and Thomas J. Mason have purchased the right to make and vend the Double Lock Stitch $15 family sewing machine, in the State of Maine, and that in a few days they will be supplied with the machines. They contemplate establishing a manufactory in this city if advisable.

A COOL THIEF.—Monday afternoon a thief after prowling round the back yard of Mr. J. G. Brown, on Essex street, and probably in spotting the chance at the clothes-line, entered the back door of the house, and went through the entries at a lame gait and out of the front door. Mrs. B. upon discovering the intruder making from the house, saw that a shawl was missing from the entry, and upon looking outdoors, saw the lame thief exhibiting his prize to a confederate on the side walk. She immediately gave chase to him but found his lameness gave place to a trot altogether too brisk for her, smart as she was, and there being nobody in the street to head off the rogues, they effected their escape. Look out for these fellows.

STORE ROBBERY AT OLDTOWN.—On Saturday night last the store of Mr. Fiske at Oldtown was entered and very thorough work made in despoiling the premises of the contents.

A temperance association has been organized at Neptune village, of which Dr. Jesse Howe is president, and three hundred and fifty persons have signed the pledge within the past two weeks. Weekly meetings will be held during the winter.

DROWNED.—Freeman B. Bryant, son of Mr. George Bryant, of Machias, was drowned at Jonesport on the 25th ult. He was on the deck of a vessel, when a violent squall struck suddenly, "jibing over" the boom and sweeping him overboard. He rose once, but could not be reached in season to save him. His age was about 21 years.

The vessel ashore at Jonesport last Monday, proved to be the Al Sawyer, of Calais. She was injured by having her keel started, or partially torn out. Engine saved in good condition.—*Machias Union.*

Agricultural Society of Maine on the Policy of the State.

Proceedings of the Maine State Agricultural Society, at their last Annual Meeting, held in Bangor, Sept. 29 to Oct. 2, 1857.

Tuesday Evening, Sept. 29, 1857.

Society met at City Hall, in Bangor, in accordance with notice given, and was called to order by the President, Sil Perley, Esq., who took the chair.

No definite business being brought forward, an informal but interesting discussion upon ploughs and ploughing took place, in which many of the members took part during the session.

Voted to adjourn, to meet at the same place on Thursday evening next.

Thursday Evening, Oct. 1, 1857.

Society met, according to adjournment, when the President took the chair and called the members to order.

Voted to hear the reports of such of the awarding committees as were ready to report.

On motion voted to ballot for some one to represent the society in the next session of the Board of Agriculture, as member from this society, and Samuel F. Perley, Esq., of Naples, was chosen.

Mr. Holmes, of Winthrop, laid upon the table the following resolves, viz:

Resolved, That the strength and glory of a State depend upon an intelligent and practically industrious population of free holders.

Resolved, That Maine offers superior advantages of land, of water power, and sea coast, which, if fully occupied, would render her one of the most prosperous and powerful States in the Union.

Resolved, That it is incumbent on our Legislature to accept some different and more efficient policy to induce more and rapid settlement of our public lands than has heretofore been adopted, and that it is a duty of this society, in its corporate capacity, and of its members as individuals of the community, to urge upon them immediate action in the case.

Resolved, That a committee of three be chosen to prepare a memorial on this subject, to be presented to our next Legislature.

These resolves were taken up and fully discussed by Messrs. Holmes of Winthrop, Rand of Orono, Fisk of Levant, Sayward of Bangor, and Poor of Portland, and unanimously adopted.

Voted, That Messrs J. A. Poor of Portland, L. P. Rand of Orono, and J. S. Sayward of Bangor, be the committee to prepare the memorial.

Mr. Sayward requested to be excused from serving on the committee, and the Society voted to excuse him and chose E. Holmes of Winthrop, to supply his place.

Mr. Forbes of South Paris, moved that a committee of one from each county be chosen to obtain subscribers to the memorial when prepared, which motion was on his motion laid upon the table, and the Society adjourned to meet at the same place on the ensuing evening.

Friday Evening, Oct. 2, 1857.

Society met according to adjournment, President in the chair.

Voted, To hear reports from awarding committees. After the reports were made, on motion of Mr. Forbes, voted to choose the committee of one from each county, to circulate the memorial—and the following persons were chosen, viz:

York—D Somers, of Biddeford.
Cumberland—E G Buxton, of North Yarmouth.
Oxford—Noah Prince of Hebron.
Androscoggin—Philo Clark, of Turner.
Lincoln—B F Buxton, of Warren.
Waldo—Horace McKenny, of Monroe.
Penobscot—E F Crane, of Levant.
Piscataquis—James S Holmes, of Foxcroft.
Somerset—Sullivan Lothrop, of St Albans.
Franklin—J G Butler, of Farmington.
Hancock—J Osgood, of ———
Washington—G W Smith, of Calais.
Kennebec—C A Wing, of Winthrop.
Sagadahoc—Washington Gilbert, of Bath.
Aroostook—S B Hall, of Presque Isle.

J D Lang, of Vassalboro', laid upon the table the following Resolves, which were taken up and discussed by J. D. Lang, who went fully into the statistics of the flax trade, its culture and manufacture; also by Messrs D Forbes, of South Paris, N Foster, of Gardiner, and others.

1 *Resolved*, That the nation which imports at enormous expense, any article which it can produce and manufacture profitably itself, is unwise, and negligent of its best interests.

2 *Resolved*, That the importation of 26 millions of dollars worth of flax fabrics, is a ruinous drain upon the resources of the country, and should be checked by the culture and manufacture of flax upon our own soil.

On motion of J A Poor, of Portland, voted that the President, Secretary, and Board of Trustees, be added to the committee to present to the Legislature the memorial in regard to the public lands and the State policy of Maine.

Mr. Scammon, of Saco, in behalf of the Trustees, then rose, and after some appropriate and feeling remarks, offered the following resolves,

Whereas, in that righteous providence of God, the board of Trustees of the Maine State Agricultural Society has been deprived of an active and efficient member, by the death of Francis T Purinton, Esq., therefore

Resolved, That we deeply sympathize with his afflicted family in the loss of a kind and affectionate husband and father.

Resolved, That a copy of the above preamble and resolves, be signed by the President and Secretary of this society, and forwarded to his family.

These resolves were unanimously adopted by the members rising, and the society then adjourned *sine die*. B. HOLMES, *Secretary*.

THE NATIONAL FINANCES. The Washington correspondent of the New York Courier & Inquirer says:

"The President and Secretary Cobb have been revising the Estimates, and have adopted reductions which they suppose will diminish the aggregate to fifty millions of dollars, exclusive of certain large objects of expenditure, which are technically termed contingent, but which are certain to occur. The expenditures of the first quarter of the present year, were twenty-three millions. The total amount of appropriations, deficit, and indefinite, is believed to be eighty-two millions of dollars.—The aggregate revenue will be about fifty-five millions. As the surplus of twenty millions on the 30th of June has dwindled to eight millions, and as all the intervening receipts, amounting to twenty-four millions, have been expended, it follows that the service of the first five months has absorbed thirty-six millions of dollars. The Mormon war will require an addition of at least ten millions to the appropriations.

The correspondent also says that the Florida war still forms a very serious item of national expense; 2000 men are about to take the field for a winter campaign, in order to hunt, says the writer, "Billy Bowlegs, three papooses and a squaw."

PAUCHMENT FROM PAPER.—The days of sheep skin, as a material for writing on, seem to be numbered, and it is probable, too, that it will be degraded from its dignity of the drum-head. Paper makers have succeeded in making from rags a very exact imitation of parchment; but a still better imitation has been produced, almost by accident. It has been found that common unsized paper, if immersed in a solution of sulphuric acid—three parts of water to one of acid—and suffered to remain three minutes, becomes, when taken out and washed in cold water, almost exactly like parchment. It shrinks somewhat, but it is increased eight-fold in strength, while no change in its weight takes place. A number of scientific men in this city, professional and amateur, have been experimenting on it, and with the most astonishing results. It has been brought before the Academy of Natural Science and the Franklin Institute, and the accomplished gentlemen of those institutions confess that they are wholly unable to account for the change that is produced by this very simple process. The only thing known is that the change takes place, and that the commonest kind of paper acquires all the properties of parchment. There must be care taken, in its preparation, and the paper, before drying must be ironed, or calendered; but nothing else is necessary.—*Philadelphia Bulletin.*

WEST COAST OF AFRICA. By way of England we have advices from Cape Coast to Oct. 11, Liberia 15th, and Sierra Leone 21st.

The sickly season had passed, and the coast was tolerably healthy.

Two slave prizes were at anchor at Sierra Leone. The trade was carried on with much activity, chiefly under the American flag. In consequence of the statement of a negro who swam from an American ship, the vessel had been seized by a British cruiser, but was restored after a satisfactory explanation.

An agricultural exhibition was to be held at Liberia in November.

VESSEL BURNED FOR $10,000.—*New York, Nov. 30.*—A heavy robbery was committed on board the barque Pontuckel, on Saturday evening, whilst lying in the stream. While the captain was absent on shore, the cabin was entered, and two casks of doubloons, of the value of $10,000, were stolen. The Pentucket was bound for Trinidad. The mate and cook are missing.

SPECIAL NOTICES.

Wheeler & Wilson's Sewing Machines.

Any person having purchased one of these Machines, can obtain a second one, (not to be used in this city) at a discount of $10. For further particulars see advertisement, and a card at Mrs. Mayo's, No. 1 Granite Block.

The Great English Remedy

SIR JAMES CLARKE'S CELEBRATRD FEMALE PILLS,

Prepared from a prescription of Sir J. Clarke, M. D., Physician Extraordinary to the Queen.

This invaluable Medicine is unfailing in the cure of all those painful and dangerous disorders to which the female constitution is subject.

It moderates all excess, removes all obstructions, and a speedy cure may be relied on.

TO MARRIED LADIES

It is specially suited. It will, in a short time, bring on the monthly period with regularity.

Each bottle, price One Dollar, bears the Government stamp of Great Britain, to prevent counterfeits.

CAUTION.

These Pills should not be taken by females that are pregnant, during the *first three months*, as they are sure to bring on a miscarriage, but at every other time, and in every other case, they are perfectly safe.

Sole Agent for the U. S. and Canadas,

JOB MOSES,

(Late I. C. Baldwin & Co.) Rochester, N. Y.

N. B. $1,00 and six postage stamps, enclosed to any authorized Agent, will insure a bottle of Pills by return mail.

To Mechanics, Inventors, and Manufacturers.

Announcing the THIRTEENTH Annual Volume of the SCIENTIFIC AMERICAN, the Publishers respectfully inform the public that in order to increase and stimulate the formation of clubs, they propose to offer

One Thousand Five Hundred Dollars in Cash Premiums,

for the fifteen largest lists of subscribers sent in by the 1st of January, 1858, said premiums to be distributed as follows—

For the largest list $200; 2d, $250; 3d, $200; 4th, $150; 5th, $100; 6th, $80; 7th, $60; 8th, $50; 9th, $40; 10th, $30; 11th, $40; 12th, $35; 13th, $30; 14th, $25; 15th, $20.

Names of subscribers can be sent in at different times and from different post offices. The cash will be paid to the orders of the successful competitors immediately after the 1st of Jan., 1858.

Southern, Western, and Canada money will be taken for subscriptions. Canadian subscribers will please to remit twenty-six cents *extra* on each year's subscription to prepay postage.

Terms of Subscription—Two Dollars a year, or One Dollar for Six Months.

Club Rates.—Five Copies for Six Months, $8; Five Copies for Twelve Months, $8; Ten Copies for Six Months, $18; Twenty Copies for Twelve Months $28.

For all Clubs of Twenty, and over the yearly subscription is only $1,40.

The new volume will be printed upon fine paper, with new type.

The general character of the SCIENTIFIC AMERICAN is well known, and, as heretofore, it will be chiefly devoted to the promulgation of information relating to the various *Mechanical and Chemical Arts, Manufactures, Agriculture, Patents, Inventions, Engineering, Mill Work*, and all interests which the light of Practical Science is calculated to advance. It is issued weekly, in form for binding; it contains annually from 600 to 800 finely executed Engravings, and notices of American and European improvements, together with an Official List of American Patent Claims published weekly in advance of all other papers.

It is the aim of the Editors of the SCIENTIFIC AMERICAN to present all subjects discussed in its columns in a practical and popular form. They will also endeavor to maintain a candid fearlessness in combatting and exposing false theories and practices in Scientific and Mechanical matters, and thus preserve the character of the Scientific American as a reliable Encyclopedia of Useful and Entertaining Knowledge.

Specimen copies will be sent gratis to any part of the country.

TELEGRAPHIC

TO THE DAILY WHIG AND COURIER

LATER FROM EUROPE.

ARRIVAL OF THE

FULTON,

AT NEW YORK.

NEW YORK, Dec. 1.

The steamship Fulton arrived shortly after 9 o'clock this afternoon. She brings $219,000 in specie.

The London papers are full of details of the Indian intelligence, but they contain nothing later.

S. Arturci, late Minister of Justice in France was buried at Paris with great ceremony, at the public expense. He is succeeded by M. Delleger.

Eight of the Belgrade conspirators had been sentenced to death and two to banishment for life.

The Divan of Jassy had voted that all citizens are equal in the eye of the law; also, the abolition of all classes and privileges, and the liberty of public worship.

The King of Belgium had dissolved the Chamber of Representatives. The elections are to commence on the 10th December. The Senate and Chamber of Representatives are convoked for the 15th Dec.

Omar Pacha had left for Bagdad, with a small body of troops, to ensure a route along the Euphrates, which had been abandoned for a century, owing to Arab depredations.

Accounts from Wallachia represent the Democratic party to be pursuing a course likely to throw serious impediment in the way of the union of the principalities. They aim at having the choice of a sovereign referred to the national vote, and talk of sending a Deputation to the conference at Paris.

A conspiracy was said to have been discovered among the Absolutists party in Catalonia.

The election in Piedmont had resulted in the return of a majority of liberals at Turin. The government had an immense majority.

Upwards of 400 persons implicated in a conspiracy, had been arrested in Naples in a single night.

The Epoca of Madrid, says that Mr. Dodge, the American Minister, had resigned, but entirely on account of the health of his family and private considerations.

Baron Delbrunow has been compelled, by the state of his health, to retire to private life.

Augustus Stafford, M. P., died sudden y at Dublin on the 10th.

The financial intelligence by the Fulton has been anxiously anticipated via Cape Race.

The Times' city article of Saturday evening says the panic is subsiding, and the funds closed at a further advance of half per cent. After regular hours there was a further improvement of one-eighth; the latest bargains for the account being at 90 a 90⅛. The rates for short loans on government security in the stock exchange to-day was 8 per cent at the bank, and in the discount market the demand, though extremely heavy, again showed diminution. The excess of credit notes beyond the prescribed £14,000,000, was last night £180,000, and to-day it is believed to have been further increased. An act of indemnity will have to be obtained from Parliament.

The ammo nctipnity on Monday evening expresses satisfaction at the intended summoning of Parliament.

The funds opened at the closing price of Saturday, but some large sales by the bankers subsequently caused depression. On the whole however the market exhibits extraordinary firmness. The price at the official close was for money 87⅞ a 88⅛, and after hours 88⅞ a 89⅛. The rate for short loans on government securities was 9 a 10 per cent.

The Times' city article of Wednesday evening says the funds opened this morning at the price of last evening, but improved on the report that the Bank of France was about to extend its circulation. The closing rate was 89⅛ 89⅜ for money, and 90 for 7th of Dec. Loans on government securities, 8 a 10 per cent. The demand for discount at the bank continues on an extraordinary scale, and the infringement of the act of 1844 is believed to have been already carried to a rather wide extent.

Business was done on Tuesday in Illinois Central shares at 12¾ discount; Penn. Central, 1 mortgage bonds 84½.

All the failures were reported via Cape Race.

Our Liverpool agent telegraphed to South'ampton on Wednesday—cotton sales of the three days, 13,000 bales, including 1200 to speculators and exporters.

Foreign Markets.

Flour very dull at a decline of 1s a 1s 6d; wheat dull at a decline of 3d a 4d, and some forced sales at 6d decline; corn dull at 2d a 3d lower. Provisions very dull; lard heavy and quotations nominal at 60s. Coffee quiet.—Sugar firm.

New York City Election—Wood Defeated

NEW YORK, Dec. 1.

The returns to hand show that a very large vote has been polled to-day. The following Wards have been heard from complete: Ward 2, 258 majority for Tiemann; 4, 1587 for Wood; 5, 375 for Tiemann; 6, 1808 for Wood; 8, 622 for Tiemann; 9, 2307 for Tiemann; 10, 244 for Tiemann; 15, 1062 for Tiemann; 17, 78 maj. for Wood; 18, 1285 maj. for Tiemann. The 11 Wards as above give Tiemann 2634 majority. Some strong Wood wards remain to be heard from; the result is doubtful.

1st ward 726 maj. for Wood, 3d ward 60 for Tiemann, 11th 1026 for Wood, 13th 132 for Wood, 17th 570 for Wood, 18th 544 for Tiemann, 20th 652 for Tiemann, 21st 866 for Tiemann. The foregoing embraces all but 3 wards and gives Tiemann 1560 majority. He is elected by about 1500 maj rity.

Latest. Ward 22d 288 maj. for Wood.—Twenty wards give Tiemann 40,002, Wood 39,542. The two wards to be heard from, the 12th and 19th, will somewhat reduce Tiemann's majority, but of his election there is no doubt.

Various Items.

ST. LOUIS, Dec. 1st.

The steamer Alleghany, for New Orleans, struck yesterday afternoon a snag near Quarantine Island, and immediately sunk in 17 feet of water. One man and one child were drowned. The boat was valued at $25,000; insured at Pittsburg for $15,000.

LOUISVILLE, Dec. 1st.

Rumors are current here that Craddock, for whose murder 18 months ago several persons are now under arrest, has been seen in Texas within the last two months.

OSWEGO, Dec. 1st.

The mild weather is opening the Welland Canal, and the vessels are getting through.—Two of them arrived here this morning, and more are expected to-day. Forty-five vessels with over 600,000 bushels of wheat, are yet due. No doubt all of them will get through if the weather proves favorable.

NORWICH, Dec. 1.

Ex-President Pierce and lady arrived here this morning, and are the guests of Judge Sawyer till the sailing of the Powhatan, which will take place in about a week.

NEW YORK, Dec. 1st.

The U. S. sloop of war St. Louis was at Port Praya October 30th. All well.

The steamship Kangaroo, from Liverpool on the 18th ult., is now off the point, and will be up to-night. The news has been anticipated by the Fulton, but she brings commercial circulars of much interest.

BUFFALO, Dec. 1.

The weather is mild and cloudy; it has been thawing all day. The canal is open to Tonawanda. Lake navigation is uninterrupted. The heavy rains of the past few days have caused a heavy freshet in the river, resulting in great damage to the shipping.

CONNEAUT, Dec. 1.

The weather is mild and spring-like; the canal is all clear, and the boats are numerous and move freely both ways, East and West.

HALIFAX, Dec. 1, 9 P. M.

Raining hard—very thick. No appearance of steamship America, now due at this port from Liverpool.

New York Markets.

NEW YORK, Dec. 1.

Flour—Common to strait State 4,75 a 4,85; Upper Lake 4,70 a 4,90; common to good Ohio 5,25 a 5,70; extra Genesee 5,70 a 7,00. Southern very heavy—Mixed, to good 5,20 a 5,45; fancy and extra Rye 5,35 a 6,00—Canadian in moderate demand—extra 5,15 a 6,50.

Wheat 2 a 3c lower—red Chicago spring 95; Milwaukie club 1,03; Southern white 1,35 a 1,60.

Oats lower—State and Western 45 a 48.

Corn—no sales.

Pork dull and lower—Mess 18,00 a 18,50; prime 10,00 a 10,50.

Beef heavy—country mess 9,00 a 10,00; prime 6,00 a 7,00; repacked Chicago 13,00 a 13,75; prime ness 23,25.

Sugar quiet and steady.

Coffee very quiet.

Freights to Liverpool dull—Cotton 5-32 a 3-16c; flour 1s 9d; grain 6c a 9d.

OLD BULLION.—The following paragraph from the pen of Old Bullion, shows that his natural force is not abated:

"I am now well recovered, and working as usual, and expect to finish the Abridgement next summer, and then to add another volume to the two of the Thirty Years' View, bringing it down to 1830. If I live that long: at all events, to the time of the Pierce administration, if we must call by his name an administration in which he was the operative, and in which nullifiers, disunionists and renegades used his name, and his power for their own audacious and criminal purposes.

Respectfully, THOS. H. BENTON.

LORD ELGIN COMING HOME IN DISGRACE.—The London Herald says it is whispered about in the vicinity of Downing street, that Lord Elgin is on his way to England, disgusted with his useless mission to China. Dispatches have been sent to the Earl of Elgin, Alexandria," and letters (as here on the address "China," have been altered to Alexandria.

Removal.

E. F. PLAISTED, M. D.

Physician and Surgeon,

Has removed his Residence and Office to Hammond Street, nearly opposite the Hammond Street Church, where he may be consulted at all hours, unless otherwise professionally engaged.

Dr. P. will continue to pay particular attention to diseases of the Chest, Shoulders, Throat and Heart. Two years a most assiduous attention given to those diseases under the most eminent German physicians in Philadelphia, and his thorough knowledge of the science of Auscultation and Percussion, enables him to detect the slightest deviation in those organs from their healthy condition.

His experience and success in the treatment of Lung difficulties, especially, give great confidence in his ability to give most assure satisfaction to all who may request his services.

Patients coming from a distance, wishing to remain any length of time under his care, can be accommodated with apartments at his residence.

LEA & PERRINS'

CELEBRATED

WORCESTERSHIRE SAUCE.

PRONOUNCED BY CONNOISEURS TO BE THE *Only Good Sauce* ALSO APPLICABLE TO EVERY VARIETY OF DISH.

EXTRACT of a Letter from a Medical Gentleman AT MADRAS TO HIS BROTHER at Worcester, May 1857.

"Tell LEA & PERRINS that their sauce is the only one relished in India, and is, in my opinion, the most palatable, as well as the most wholesome Sauce that is made."

The only Medal awarded by the Jury of the New York Exhibition, for Foreign Sauces, was obtained by LEA & PERRINS for their WORCESTERSHIRE SAUCE, the world-wide reputation of which having led to numerous imitations, purchasers are earnestly requested to see that the names of "LEA & PERRINS" are impressed upon the Bottle and Stopper, and printed upon the Labels.

FLOUR,

Wheat Meal & Shorts.

The subscriber has commenced manufacturing FLOUR in one of the best Wheat growing sections of the West. His purchases of Wheat are made by agents going among the farmers and selecting the choicest parcels of *Spring Winter Wheat*, for which an extra price is paid, yielding all other kinds and all ordinary qualities. Attached to his Mill are all the latest improvements. The Wheat is thoroughly cleaned before grinding, and the Flour is double cooled before packing. The whole contents of the Wheat are transported to Bangor by Railroad, in Flour of four different qualities, in unbolted wheat meal, and in shorts. A car load, 100 bbls will arrive weekly, so that customers can be supplied at all times with Flour and Meal, fresh ground within ten days. The meal is in bags, considerably not injured by packing 196 lbs. in a barrel as is the usual practice. This Flour and Meal will be found to have the fresh flavor of pure new Wheat, not having been heated in large piles or in vessels; as is the case with nearly all the wheat manufactured in the large establishments for the large markets.

Dealers can be accommodated with a weekly supply on favorable terms, upon application to the subscriber, Office No. 27 West Market Place.

Samples may be seen at the Stores of JOHN McLAUGHLIN, No. 143 West Market place, O. D. HOLT & SON, Broad Street,

COAL

and Gas Burning

MacGregor's Ventilating

STOVES.

THE reputation which this Stove has attained in the United States during the past six years, is a sufficient guarantee of its character as a complete Philosophical Mechanism, superior to either Hot Water or Steam, because of its simplicity, its easy management and control, and more especially its economy and the mild and healthy atmosphere it generates and diffuses.

The heat is thrown into the large cylinder drum of the air chamber, and thus does not become so heated as to burn or destroy the oxygen of the atmosphere. They can be regulated so as to give any degree of heat required; and unlike other Anthracite Coal burners, ventilate the apartments quite as thoroughly as a wood fire or open Franklin.

The fire may be continued from one to three days without replenishing, and for months without clearing out or requiring the use of charcoal or wood to re-kindle.

10 pounds of coal has been found sufficient to warm a common sized apartment twenty-four hours in the coldest weather.

STEAMERS.

WINTER ARRANGEMENT.

NEW YORK & PORTLAND.

The Splendid and Fast Steamer

Chesapeake,

Capt. SYDNEY CROWELL, will run regularly between *New York* and *Portland*, as follows:

Leaves Brown's Wharf, Portland, every SATURDAY, at 4 P. M., and returning, leaves New York, Pier 12 N. R., every TUESDAY at the same hour.

This vessel has just been fitted up with fine accommodations for Passengers, making this the most speedy, safe and comfortable route for travellers between New York and Maine.

PASSAGE $6,50—including Fare and State Rooms.

☞ Goods forwarded by this line to and from Montreal, Quebec, Bangor, Bath, Augusta, Eastport and St. John. Also, connects with steamers for Baltimore. Goods taken through without repack, at the cheapest rates.

For freight or passage apply to

H. B. CROMWELL, Pier 12 N. River, New York.
EMERY & FOX, Brown's Wharf, Portland.

Portland, Nov. 24, 1857. 0m

California Steamers,

Carrying the United States Mail

5th and 20th of each month.

Through Tickets, including transit of the Isthmus, via. Panama R. R.

By order of the Postmaster General, the United States Mail Steamers will hereafter be despatched from New York direct to Aspinwall, on the 5th and 20th of each month.

Passengers are landed at the Railroad Depot, Aspinwall, and conveyed across to the Pacific Steamers *without any extra expense*. This is the only line giving entire Through Tickets, including meals, on the Isthmus.

Transit made in *four hours, entirely by daylight*, thus avoiding the great exposure by night in open boats to fever and ague, and 200 miles of dangerous lake and river navigation over rocks and shoals.

Arrangements have now been completed so that the regular U. S. Pacific Mail Steamer will leave Panama for San Francisco immediately on arrival of the Atlantic Mails and passengers, thus securing passengers by the Mail Line a *safe* and *short* passage, without any detention on the Isthmus.

☞ *Tickets must be signed by one of the Company's Agents before they will be recognized by the Agent at Panama*, and tickets thus signed can be obtained of the *only authorized Agent* for the Atlantic and Pacific Mail Steamship Companies, in this city.

C. L. BARTLETT, Agent.

Office No. 16 Broad Street, Boston.

Portland to Boston.

Summer Arrangement.

The Steamers LEWISTON, Capt. Geo. Knight, and the POTOMAC, Capt. P. A. Parker, will run as follows:

Leave Atlantic Wharf, Portland, every Monday, Tuesday, Wednesday, Thursday, and Friday, at 7 o'clock P. M., and Central Wharf, Boston, every Monday, Tuesday, Wednesday, Thursday, and Friday, at 5 o'clock P. M.

Fare in Cabin,	$1,50
Fare on Deck,	1,00
Freight taken as usual.	

Each Boat is furnished with a large number of State Rooms, for the accommodation of ladies and families; and travelers are reminded that by taking this Line much saving of time and expense will be made, and that the inconvenience of arriving in Boston at late hours of the night will also be avoided.

The Boats arrive in season for the passengers to take the earliest trains out of the city.

The Company are not responsible for baggage to any amount exceeding $50 in value, and that personal, unless notice is given, and paid for, at the rate of one passenger for every $500 additional value.

L. DILLINGS, Agent.

918 d&w

Alpine Hair Balm,

—FOR—

Restoring Gray Hair to its Original Color

WARRANTED to cure Baldness, Scurf, Dandruff, Itching, and all diseases of the skin. This Balm gives the scalp a new and healthy action, restores the coloring matter to the roots of the Hair, which passes through the Hair and gives it a natural color without the use of Hair Dye.

Hundreds of preparations have been introduced, pretending to preserve the Hair and keep it from falling off, composed of Oils, Alcohol, and other deleterious materials, and all to no use. Hair dyes have been introduced that do not give the Hair a natural color, besides being troublesome to use. This Balm is not a Dye. Knowing that a preparation was needed to do what was required for the Hair, the proprietor was induced to experiment, until he could obtain an article that would be the exact remedy, and after seven years trial has perfected this Balm. It is soothing and emollient, allays all irritation of the scalp, thereby stopping that much esteemed itching. It cures Dandruff and Scurf, and when the hair has turned gray it will bring it back to its original color; be it Black, Brown or Auburn. It makes the Hair soft and glossy, prevents it from falling off as will be seen upon using this Balm for only a few days—life will be given to the roots of the Hair, and growth will soon appear. Growth does not take place at the end of the Hair, as will be seen in persons who have had their hair dyed. If you examine gray hair that has been colored for a week, you will find, first is the roots, that the hair has come out gray, hence it is necessary to have the fluid at the roots of the hair healthy, that the whole hair may be a natural color. Each hair has a root in the skin, and is of itself a hollow, gray tube, thru which there is a constant circulation of the pigment from the root. When this pigment or coloring matter dies out, it leaves the hair hollow, and it becomes gray. To invent a Balm that would produce this pigment has become the study of the proprietor. The discovery of the Alpine Hair Balm will do it. It will bring the hair to its natural color by making know the coloring matter in the roots of the hair.

It is a mistaken notion that oil or grease will restore the hair, as nothing can be more injurious. The Alpine Hair Balm will restore the skin and save the hair of those who have been sick with fever or any other disease.

DR. PETTIT'S CANKER BALSAM!

To be Value needs but to be Known.

It is its own BEST RECOMMENDATION

But a short time since we were talking with an agent, who had for years sold but little, but had now sold all out. He informed me that it had cured his family of

WHITE'S SORE BREAST,

After which others had tried it, and

EVERYBODY LIKED IT.

A Carpenter in Camden, Maine, afflicted with

CANKER IN THE MOUTH,

tried various remedies, had recourse to physicians, but obtained no relief.

His mouth was one complete CANKER SORE. The gums swollen and affected TO THE POINT OF SUPPURATION, and CLEAVING OFF FROM THE TEETH.

A perfect cure was effected by ONE BOTTLE of **Dr. Pettit's Canker Balsam.**

This House has been thoroughly repaired, refitted, and refurnished throughout with New Carpets, Furniture, Beds and Bedding, and is now open for the reception of company, under the charge of the subscriber.

It is a large, commodious, and well furnished House, situated on Main Street, near the centre of the city, and within a short distance of the Steamboat Wharves and the Depot of the P. & K. Railroad, to and from which Coaches are always in readiness to convey passengers.

Its numerous advantages to strangers, and particularly to those visiting the city on business or for pleasure, renders it one of the most desirable Houses in the city.

Connected with the House is a large and commodious Stable, in charge of competent and faithful hostlers.

By strict personal attention to the comfort of his guests, the proprietor hopes to receive a liberal share of patronage.

NATHAN PERRY, Jr.

Bangor, Feb. 20, 1856

OLDTOWN HOUSE,

Oldtown, - - - - - - Maine.

BY MRS. HARRIET STINSON.

The undersigned very respectfully informs her friends and the public generally, that she has lately refitted and refurnished the *Oldtown House*, and is prepared to accommodate all who may favor her with a call. Every attention will be bestowed upon guests and travelers, who are assured that for a brief or long stay, they will find their wants and comforts always cared for. The table will always be supplied with the best the market affords, and all the luxuries of the season.

In connection with the above House is a large and well finished hall, suitable for Dancing parties.

Connected with the House is one of the largest Stables in Oldtown, with the best accommodations for horses and teams, which is under the care of a faithful hostler.

Parties from Bangor, or other places, can be accommodated on reasonable terms, on giving a short notice.

HARRIET STINSON.

Oldtown, July 4, 1857. tf

STANLEY HOUSE,

WATER STREET, AUGUSTA, ME.

G. W. RICKER, would respectfully announce to the Travelling Public, that he has reopened the Stanley House, Augusta, and furnished it throughout with NEW and ELEGANT FURNITURE, and made every arrangement necessary to continue it as a First Class Hotel.

This is the most centrally located House in the city, being directly opposite the Depot, and in close proximity to the steamboat landing, Court House, Post Office, and but a few minutes' walk from the State House.

Business men, or persons travelling for pleasure, will find that this House affords every convenience or luxury that can be desired, and the Proprietor is determined to spare no pains to make it in every respect second to none in the State.

Books for all Stages leaving town will be kept at this House.

In connection with the above are good Stables with attentive and careful Hostlers.

The Mountain House,

CAMDEN,

Has been refitted and opened for the accommodation of the Travelling Public and boarders.

TERMS, $1.00 PER DAY.

The subscriber also offers the said stand and Furniture for sale. E. W. PENDLETON.

Camden, July 17, 1857.

AMERICAN HOUSE,

BOSTON.

Re-establishment of the old plan of management.

LEWIS RICE, Proprietor, respectfully announces that he has resumed the *old plan* of management, as it existed before the recent alterations. Trial of the European system in *this House*, proves that although the advantages are great yet the plan is better adapted for the *smaller class* of hotels.

The accommodations and conveniences of the House are unsurpassed, and the recent improvements and alterations, for the comfort of guests, leave nothing to be desired.

Boston, Sept. 18 1857 3m sup

DR. SANFORD'S INVIGORATOR, OR LIVER REMEDY!

HAS ALL THE GOOD QUALITIES OF A Purgative Medicine, answering the purposes of any cathartic without the debilitating effects experienced from most purgatives. It acts slowly and gently, but surely, moving the bowels to carry off all the secreted matter, at the same time stimulating the *Liver* to a proper performance of its functions.

The Invigorator cures Sick Headache. Take one at two hours full at the first attack, and it will soon disappear. For an overloaded stomach, or when food does not digest, take the Invigorator after eating, and it will prove a great relief or immediate cure. For Heartburn, Palpitation, or Difficult breathing, take a teaspoonful, once or twice daily. For Dyspepsia or Appetite Lost, Costiveness, the medicine is invaluable. It will restore the appetite and make the body feel well. Nightmare, take a teaspoonful at retiring, and the demons of dreams shall be put to flight. After eating a hearty dinner, take a dose of the Invigorator, and it will relieve all oppression or fullness. The Invigorator is a Liver Remedy of unequalled virtue, going directly on that organ, curing Dyspepsia, Jaundice, Bilious Attacks, Dysentery, Piles, Worms, and all Female Obstructions, for which it is no equal.

We know there is nothing now before the American public, prepared with such ability by a scientific man, particularly for diseases of the Liver, as Dr. Sanford's Invigorator, or Liver Remedy. It has attained a reputation second to no other article in the medical world, because it does what it professes to do. Some nine out of every trial that it is sold that its proprietors claim it to be, if any other remedy can not relieve, suffers from any such diseases as are described in Dr. Sanford's advertisement, we know of no remedy that will surely cure them as the Invigorator.

There has lately been brought to our notice a medicine that seems to possess wonderful curative and healing properties in diseases of the Liver, Stomach and Digestive organs. It came to us with so many testimonials in its favor that we have noticed its effects in some of the worst cases of confirmed debility, caused by deranged liver, and in every instance the effect was to relieve or give a permanent cure. Dr. Sanford's Liver Invigorator is what we refer to. We always have been averse to about cures by patent medicines, believing it to be a fact that the medicine, for truly used, is not overrated by the list of recommendations it has. Our advice is, for all troubled with Indigestion, Debility or Bowel Complaint, to get a bottle and try it; and, if not relieved, will be experienced.

Blessings to the Invalids, who use Dr. Sanford's Invigorator, for it will relieve them of their pains as soon as it is taken into their stomach. Pain and misery cannot exist where the Invigorator is used; for it will surely drive them away, as daylight will panic, dark cases, of the worst character, to those who apply it, for it carries conviction with every dose taken. Another evidence is the thousands of certificates from those who use it, or have been cured by it. Try one bottle, if it does not benefit, then we are mistaken.

METALLIC PENS.—The best made, at D. BUGBEE & CO'S.

DR. SANFORD'S INVIGORATOR OR LIVER REMEDY.

THIS IS ONE OF THE GREATEST SCIENTIFIC Medical discoveries ever made, and is daily working cures almost too great to be believed. It cures as if by magic, *does the first dose more than one bottle of any other Liver Complaint*, from the worst Jaundice or Dyspepsia down to a common headache.

of a Distracted Liver.

The Liver is one of the principal regulators of the human body, and when it performs its functions well the powers of the system depend, on the healthy proper performance of its functions. When the stomach is at fault the whole system suffers from the Liver—having the diseases of that organ made its high study, in a practice of more than twenty years, to find some remedy wherewith to cure the many derangements to which it is liable.

To prove that this remedy is at last found, any person troubled with Liver Complaint, in any of its forms, has but to try a bottle.

A compound has been found and extracting that part active virtues of the medicinal morbid, or bad matter in this place, where it lay in the stomach, causing food to turn to the whole machinery, removing the effects of medical cure, pressible effects left by mercurial Poison, that are usually required.

To all who will believe, we positively guarantee, that a bottle of the Invigorator, according to directions, will relieve any case of Liver Complaint, or Bilious attacks, viz: Sick Headache, Nausea, Costiveness, Dizziness, Difficult breathing, Jaundice, Piles, Loss of Appetite, Costiveness, Dyspepsia, Bilious Fever, Fever and Ague, Costiveness, Dysentery and Diarrhœa, Worms, Suppression of the Menses, Nervous Debility, &c.

For Dyspepsia or Jaundice, as a family or cure alone, it removes all yellow color from the skin.

For Nightmare, take a teaspoonful at retiring, and it will prove a sure preventive.

For Female Obstructions, as it removes the cause, it is freely taken, while Chlorotics or Green Sickness.

It must be known that all diseases, or caused by a deranged or torpid Liver, medicine, the Invigorator is medicine, never before discovered, that will cure all diseases of the Liver, no matter what may be the cause, or how long it has been formed. It will not only relieve but positively cure every disease for which they are recommended. These Pills have stood the test of the ingenious Japanese Faculty for centuries, and the same kind of ingredients that composed the Pills at that distant time are combined to the present day.

No medicine except our MAGIC COMPOUND ever met with such unbounded success in so short a time, and the thousands of orders pouring in for them from all parts of the country is wonderful and astonishing! The number of these pills being used by females alone for their various complaints, constitutes in itself an immense trade—they are not the *"female pills"* so much puffed into public notice, which, instead of curing, produce cruel and dangerous complaints, but are for male or female, old or young, and cure by acting directly on disease.

The Pills are sent by mail, from the Proprietor only, on receipt of the price. The postage in the United States not over 3000 miles, is fifteen cents on five boxes, which must be inclosed in money or stamps. We are responsible for all moneys sent us by mail.

JAPANESE LIFE PILLS.

NATURE'S OWN REMEDY.

A positive Cure for Liver Complaint and Bilious Disorders, Dyspepsia, Rheumatism, Scrofula, Cutaneous Diseases, Fever and Ague, Costiveness, Dysentery and Diarrhœa, Worms, Suppression of the Menses, Nervous Debility, &c.

FOR a long time we have been compelled to witness with painful emotion, the many adulterated and life destroying drugs made into pills and liquid medicines, and patronizing them without knowing their injurious effects upon their system. This monstrous evil may now be effectually checked by using only the ONE ANCIENT JAPANESE LIFE PILLS and our MAGIC COMPOUND. For many years we have labored hard to find a cathartic which, while it purged, would *throw out disease, and not mere secretions alone; would renovate and strengthen*, and not *deplete and weaken the system.*

We now unhesitatingly say, that this so much sought for remedy—a cathartic of mild and pleasant operation, actually throwing out *disease* and not mere *secretions*; thoroughly purifying the blood, and *immediately* strengthening the system—has been found. They will not only relieve but positively cure every disease for which they are recommended. These Pills have stood the test of the ingenious Japanese Faculty for centuries, and the same kind of ingredients that composed the Pills at that distant time are combined to the present day.

No medicine except our MAGIC COMPOUND ever met with such unbounded success in so short a time, and the thousands of orders pouring in for them from all parts of the country is wonderful and astonishing! The number of these pills being used by females alone for their various complaints, constitutes in itself an immense trade—they are not the *"female pills"* so much puffed into public notice, which, instead of curing, produce cruel and dangerous complaints, but are for male or female, old or young, and cure by acting directly on disease.

The Pills are sent by mail, from the Proprietor only, on receipt of the price. The postage in the United States not over 3000 miles, is fifteen cents on five boxes, which must be inclosed in money or stamps. We are responsible for all moneys sent us by mail.

Dr. Wesley Grindle's

CELEBRATED

MAGIC COMPOUND,

—THE GREAT—

Remedy for Pulmonary Consumption.

Also, an effectual cure for Scrofula, Dyspepsia, Obstinate Cutaneous Eruptions, Chronic Rheumatism, Bilious Disorders, General Debility, and all diseases depending on an impure state of the blood.

THIS WONDERFUL REMEDY has done more to alleviate human suffering than all other means put together. It has the greatest sale of any medicine in the world for *Pulmonary Complaints*, from Maine to the most refined dwellings of Oregon, or wherever Consumption is known. It finds its way to the sick, carrying health and joy into thousands of families. The most eminent physicians have been forced to acknowledge that it does cure Consumption, and they now use it in their practice as a standard and sure remedy.

There is no remedy equal to it in building up a system, that, under the influence of various diseases, hardships, or exposures, has run down or lost its natural tone and vigor. It is great secret in its power to reach the blood, cover the vitiated fluids, and Arrest the deposit of tubercle in the lungs; and it is as safe as it is certain in its action.

Some poor sufferer, full of anxiety and doubt in regard to what we say, may ask. Can your medicine restore a portion of lung, that disease has entirely destroyed, leaving a cavity? We answer, certainly not, neither is this necessary in order to effect a perfect cure. If the treatment be commenced in season, but little or no portion of the lung is lost. It is necessary only to *arrest* the disease, and when this is done, the remaining substance deposited in the tissues of the lungs, technically known as tubercle, becomes also dead, lifeless, perhaps, a little calcareous substance which is quite harmless, and the patient find himself in possession of whole lungs and sound health. But suppose the disease is not arrested at 4 in early stage. The softened tubercle produces irritation; the irritation brings on inflammation of the part of the lung; the inflammation leads to ulceration, and the destruction of a portion of the tissue is the result; a cavity is formed which enlarges and does its work of death unless the deposit of tubercle is arrested. Now, does your remedy effect a cure? *Most assuredly it does.* As soon as the disease is arrested, the fortid matter is absorbed or expectorated, and nature either furnishes the cavity with a lining membrane, or what amounts to the same thing, the sides of the large cavity, its walls fall together and heal up, leaving a scar, and the remaining portion of the respiratory apparatus, true to a law running through the whole physical economy, becomes somewhat enlarged, takes on increased action, and so fully compensates for the work lost by the diseased portion.

Prices.—One box $3.00; three boxes, ordered at one time, $8.00; half dozen, $14.00; one dozen, or any number greater, at the rate of $2.00 a box.

The postage in the United States not over 3000 miles, is fifteen cents for over 3000 miles, fifty cents a box. In all orders the amount should be inclosed in money, or stamps. I am responsible for all money sent me by mail.

J. S. INGRAHAM and B. F. BRADBURY & CO., agents for Bangor.

TREMONT MILLS.

Teas, Coffees, Chocolates, Cocoas, Spices, &c.

WHOLESALE—AND ALSO IN SMALL PACKAGES

E. E. DYER & CO.,

(Sign of the Chinaman grinding Coffee,)

No. 8 Broad, near State Street, ... Boston,

Supply the best, fresh and purest articles, at the *lowest Cash prices.* Their Stock consists of

Teas, Coffees, Chocolates, Allspice, Pepper, Mustard, Ginger, Cayenne Pepper, Nutmegs, Cinnamon, Cloves, Cream Tartar, Tarratum of Pyrene, Indian Meal, &c.

Having every facility for manufacturing and preparing the several articles named, the public may rely on having them pure and genuine, as they are put up carefully, and bear our name and label, "TREMONT MILLS, E. E. DYER & CO." To give consumers some idea of our sales, we annex the following scale of prices, viz:

5 lb. Southong Tea,	3,75 lb. Mocha Coffee,	1,00
5 lb. Oolong Tea,	2,50 lb. Java Coffee,	1,00
5 lb. Y. Hyson Tea,	2,50 lb. good Coffee,	1,00

☞ The Spices are put up in 1 and 4 lb. tin cases, expressly for family use, and are warranted to be strictly a pure article, and only need a trial to establish them in public favor.

SPANISH COFFEE.—We would call the attention of consumers and dealers to our *Spanish Coffee*, as an article which is highly esteemed, and gives the greatest satisfaction. It is prepared with particular care, and by a peculiar process in roasting, one pound of this coffee, it is believed, is equal to 1¼ lbs. of any other.

DANDELION COFFEE.—This article is carefully prepared at our mills, and put up in packages having our trade mark, and may be relied upon as the best and most approved mixture of dandelion and coffee.

TARAXACUM, or *Prepared Dandelion Root.* This article is prepared and roasted at our Mills, is retailed by Family Grocers generally in city and country, and bearing our trade mark, *"Chinaman grinding coffee,"* may be relied upon as the *genuine article.* The proportion used is about one half the quantity of coffee. The price is 20 cents per pound, and it is warranted to be the same as that which has been sold for fifty cents a pound by druggists.

The medical properties of Dandelion are well known, and held in high estimation by all who use it. This being a preparation of the root, with all its medicinal virtues retained, can be mixed with coffee or hot, as best suits the taste, and will be found cheap and convenient as a family beverage, one pound of which is equal to nearly two pounds of coffee. It is prescribed by many eminent physicians, to invalids, children and aged persons, as a nutritious beverage, and as a remedy for Dyspepsia, Bilious affections, &c.

☞ Be careful to observe that all our Taraxacum has our trade mark—"Chinaman Grinding Coffee"—as there are many imitations of our article *called* Taraxacum in the market.

☞ *To Grocers and Dealers* a liberal discount is made, enabling them to supply their customers at the same low rates.

TO CASH PURCHASERS.—Our object in seeking to secure large sales at small profits, we offer inducements which cannot be afforded by those who do business on the credit system; and we confidently invite an examination of the quality of our stock, and our prices, as compared with those of any other house.
